

Link-It 1,0 B nautic-green

The first fibrepen with a clever system to allow a variety of combinations. Ink colour Nautic-Green, line widths 1,0 mm. Not only different favourite colours, but also different Link-It writing systems such as fineliner and fibrepens can be easily linked. The cap-off ink does not run dry even if the cap is removed for 2-3 days. The rubberised ergonomic and three-edged barrel is ideal for relaxed writing. As the cap fits neatly on the end of the barrel it can be held comfortably as an individual pen as well. It does not roll on the desk and its slimline design fits perfectly into pupils' pen cases individually or linked. The barrel is made of 88 % biobased plastic. The Link-It is produced CO2 neutral.
