Schneider

Plug+Play
Universal fit

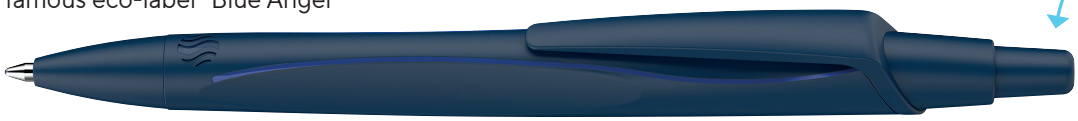

The **Plug+Play system** allows different refills to be swapped in compatible writing instruments. Changing the refill is quick and easy, opening up a wide range of possibilities to suit different writing styles. In just a few simple steps, a ballpoint pen can be turned into a gel pen – and vice versa.

The refill cartridges listed below are interchangeable amongst the writing instruments shown. They extend the writing instrument's lifespan and can help reduce material consumption compared to buying a brand-new writing instrument. At the same time, they offer a practical and economical solution for everyday use. **www.schneiderpen.com**

Reco

First ballpoint pen in the world that has been awarded the famous eco-label "Blue Angel"

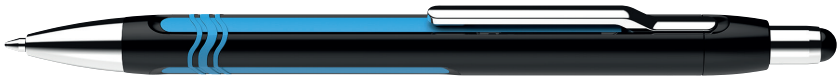

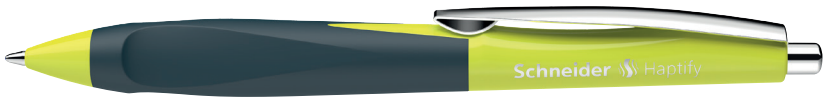

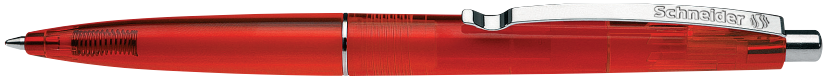

BLUE ANGEL THE GERMAN ECOLABEL
