Design fountain pen Ceod Shiny - shimmering elegance

For those who feel that writing with a fountain pen is still part of the sophisticated writing culture and for those who appreciate the emotional value of handwriting, the new Schneider fountain pen "Ceod Shiny" is just the right pen.

Writing with a fountain pen is an expression of personality and appreciation. In times of digitization, e-mails and fast messages, handwritten texts have a special status and enjoy increasing popularity. Even in the office world, handwritten notes and messages are a strong signal for communication. The associated materials also play an important role. Messages, written by hand on letters, cards or in a book are usually well considered and transferred lovingly onto paper. The new fountain pen Ceod Shiny from Schneider is the right ambassador for these types of messages.

The classy fountain pen is straightforward and combines simple elegance with minimalist but striking lines and design. Its elegant faceting of sharp edges, which disappear softly, in combination with a subtly, glossy matte finish give the Ceod Shiny the noble look, which makes it an eye-catcher in a very classy way.

The pearly silky matte surface lies comfortably in the hand and the ergonomically rubberised grip profile of the fountain pen promotes a relaxed grip. Its deliberate simple design turns Ceod Shiny into a timeless classic. The shiny stainless steel clip completes the look of the elegant shimmering pen body and reflects the high quality of the writing instrument.

Ceod Shiny is available in five colours: Spider black, stone grey, pearl white, powder pink and pacific blue. The pen is easy to refill with standard ink cartridges. The high-quality stainless steel nib and the rubberised grip profile are equally suitable for right and left-handers.
