New at Schneider and the Makers Line: Chrome marker Paint-It 060 and 061.

Schneider [Chrome marker Paint-It 060 and 061](#) - The highlight among markers. The handy pump marker is perfect for lettering, tags, model making, crafts, scrapbooks, marking gift cards, journals, calendars, planners, colouring books, hobbies and the DIY scene.

The highly pigmented special alcohol-based ink shines with its high-class mirror effect on non-absorbent surfaces. It is highly opaque, permanent and UV resistant and enables a clean and homogeneous colour application. The liquid chrome gives a special look to almost all smooth, dark, non-absorbent object surfaces such as glass, plastic, ceramics, metal etc. and becomes the shining star for many DIY applications. The perfectly valve-controlled ink adheres and dries quickly, flows without foxing, leaks or bleeding, making it suitable for indoor and outdoor applications and can satisfy all creative needs.

The marker is available in the variants extra fine 0.8 and 2 mm. They are available either in a folding carton box of five or in a shop-in-shop display with 30 pieces or in a cardboard display with 30 pieces.
